

Pony Enterprises

INCORPORATED

1965-73 Mustang Parts List

Since 1981

Introduction

Pony Enterprises, Inc. is a manufacturer / wholesale distributor of restoration and maintenance hardware and fasteners for classic cars. We have been serving the Mustang community since 1981. We also have a line of products for all other generations of Mustangs and Shelbys ranging from '74 to the present model year.

In addition, we supply similar products for many other car and truck applications on a special order basis.

If you require items for other applications, contact us with the particulars.

Pony Enterprises, Inc. is a wholesale only distributor and does not sell directly to the public. We do not feel it is proper business etiquette to compete with our dealers.

If you are a consumer looking for our products, call us for the name of a dealer who carries our product line.

Pony Enterprises, Inc. has been a member and supporter of the ARMO (Automotive Restoration Market Organization) council of SEMA (Specialty Equipment Market Association) since 1993. We urge all businesses involved in our industry to do the same. This is the only organization that supports the old car hobby and its participants on a local, state, national and international level.

You can now go to our website and place orders, download parts lists and view photographs of our hardware.

The order form can be filled out and with the click of a mouse, your order will be sent directly to us. This is the easiest and fastest way to submit an order. You can still fax, email or call your orders in. However, using the website will be the fastest and most accurate method.
